

Fantastic Armory from Around the Known World

Each month some truly wonderful armory designs from kingdoms all over the Known World are registered by the Society's College of Arms. All accepted (and returned) heraldic submissions are listed on that month's Laurel Letter of Acceptances and Returns, which can be found at <http://heraldry.sca.org/loar/>. The very best submitted items get a "Nice name!" or "Nice device!" or "Nice badge!" comment upon registration, meaning they are as period and authentic as possible. It may surprise many people to find out that nice simple period-style armory hasn't all been taken, and is still quite possible to register!
